

MAKIN NUT CO.

HULLER - PROCESSOR - ROASTER - EXPORTER

SINCE 1983

The pistachio, *Pistacia vera* in the Anacardiaceae family was first cultivated in Western Asia. Its cultivation spread quickly into the Mediterranean world. The pistachio is one of two nuts along with almonds that mentioned in the Bible. Since 1983, Makin nuts is processing pistachios, while today is a leading pistachio processor and exporter.

Pistachio Inshell – Explanation of Technical parameters

LIGHT STAIN

DARK STAIN

ADHERING HULL

FOREIGN MATERIAL

EMPTIES

NON-SPLIT SHELL

Foreign material: Glass, metal and live insects are considered as completely prohibited foreign materials. Acceptable foreign materials are pistachio related debris such as hull, stems, shells and sand.

Non-uniformity of Size: Ratio of the total weight of the 10 largest nuts in a sample of 100 nuts to the weight of the smallest 10.
