

COMPANY PROFILE

Nutfood Hellas

Specialized in almonds and pistachio nuts processing.

Nutfood Hellas is founded in 1986 by the Mekanikas family and it is specifically geared toward processing almonds and pistachios nuts from Greece and other origins. Thanks to a long-term experience and skills, efficient vertical production and organization structure, NutFood Hellas has become a leading supplier for some of the most important packing, confectionery and food industries.

First material

At NutFood Hellas we developed strong relationships with reliable farmers and packers from Greece, USA, Spain, and Ukraine to ensure we process the quality of almonds, pistachio nuts and walnuts required by our customers.

Processes

Once raw materials are selected, we perform on our vertical integration plant various processes as:

- a. Hulling and Shelling
- b. Pin sorting & Sizing
- c. Color Sorting & Cleaning
- d. Blanching & Dicing
- e. Roasting (dry roasting, salting and/or citric acid)
- f. Paste grinding
- g. Bulk and Retail packing

What makes NutFood products really different are skills and selection through which we process our nuts. Extensive use of last generation foreign material detection with the use of vibration machines, air aspiration systems, sizing lines, RGB and Artificial Intelligence color sorters and final visual checks allows us to detect and remove the smallest traces of foreign material. Along with cold stores and fumigation chamber we are able to offer our products all year around in perfect conditions.

Quality

At NutFood we care for every detail, nothing is left to chance. As our work is part of our lives, we strive to distribute almond and pistachio nuts on an industrial scale, this drives us to be more focus on quality.

- ✓ Strict quality controls on each incoming raw material and during all stages of processing.
- ✓ HACCP compliant facility
- ✓ Establishments that comply with the provisions of Regulation (EC) No 852/2004 on the hygiene of foodstuff.
- ✓ Peanut-free facility, minimizing the risk of allergens.
- ✓ Minimum chance of cross-contamination between different type of nuts due to especially designed processing lines.

Codex Alimentarius
